Changes for the Noise Music System v0.8.0.0 Release

Query: **fix for: 0.8.0.0 state: Fixed** (show in YouTrack)

Bug

- Noise-147 — Allow a rating to be set to zero, or unrated.
- Noise-173 — Explorer album nodes do not get updated when albums are edited.
- Noise-179 — History list is incorrect.

Feature

- Noise-25 — Music Decade view
- Noise-66 — Provide a viewer for album information files.
- Noise-67 — Provide viewer for extra album artwork.
- Noise-109 — Support global hotkeys for control of player
- Noise-169 — Add the ability to sort the play history view - normally displayed in last played order.
- Noise-175 — Add artwork and text info document names to the database objects for display in the user interface.
- Noise-176 — Add a link to the album display to open the containing folder for the albums files.
- Noise-180 — Allow the explorer tree node albums to be sorted by published year or album name.
- Noise-182 — Add indicator in artwork class that image should be rotated, rotate for display.
- Noise-185 — Add a view to display all tracks for an artist, expanding to the albums they appear on - as an alternative to the albums view.
- Noise-187 — If there is no obvious album cover, select anything containing 'front' in the name, or if there is just one piece of artwork, use it.
- Noise-190 — Optionally update an album's tracks when the published year is changed.
- Noise-192 — Add the ability to edit track information.
- Noise-194 — Add Windows 7 taskbar support for player transport controls.
